

WP 21 g. 42/63  
R I P O N, APRIL 12th 1790.

A false report, has been circulated throughout this borough that the friends to the RIPON BILL, have already expended a very exorbitant sum in their endeavours to obtain its being passed into a law, and such being allowedly calculated to mislead and impose upon the Inhabitants.

The COMMITTEE who have the conduct of that bill, think it necessary hereby most solemnly to deny the truth thereof, and they trust neither this report nor any others of such tendency which may be propagated pending the event will obtain the least credit with the disinterested and discerning part of their neighbours, particularly as the ample subscription already provided for that useful purpose, has as yet been untouched, nor will those liberal subscribers, or the inhabitants, be ever liable by our conduct, to the payment of any more, than what we can prove to be a just, fair, and oeconomical expenditure.
